Agenda notes

3. I've attached a copy of the proposed rules for the Skateboard Park as drafted by the Skateboard Committee. I asked the Committee to prepare a set of rules based on their experience at different parks. After reviewing their proposed rules and comparing them to rules from different parks in research on the internet and local parks in the area, I feel the rules they have proposed are good. It may appear to be a long list of rules, but this is very common at parks. Like all rules, they can be modified in the future if need be.

Below is a correspondence from Skateboard member Jami Gebert

Hey Tom,

Attached are the Rules & Regulations for the Skate Park. There might be more then is needed, but I wanted the Park Commissioners to see several options and they can remove ones they don't feel are needed.

On page two there are a couple of additional considerations - these are ones that I don't think really apply to us, but still thought the Park Commissioners should see in case they feel strongly they should be included.

Thanks for everything Tom,

Jami
